CashHelpdesk

A photograph of an elderly woman with dark hair, wearing a dark blue shirt, smiling broadly as she counts a stack of banknotes. She is seated at a table with other people in the background, suggesting a community meeting or a distribution point. The scene is brightly lit, and the atmosphere appears positive.

RCRCM Cash preparedness (CVAP) journey to date

- **2012- 2013 Pilot cash preparedness**
Vietnam, Philippines, Senegal, Chile
- **2014 Independent evaluation**
- **2015 Set up Cash Preparedness TWG**
Cash preparedness guidance and tools developed
- **2018 Independent evaluation**
Kenya, Malawi, Myanmar, Pakistan, Philippines, Vietnam
- **2019- 2020 Updating guidance and tools**

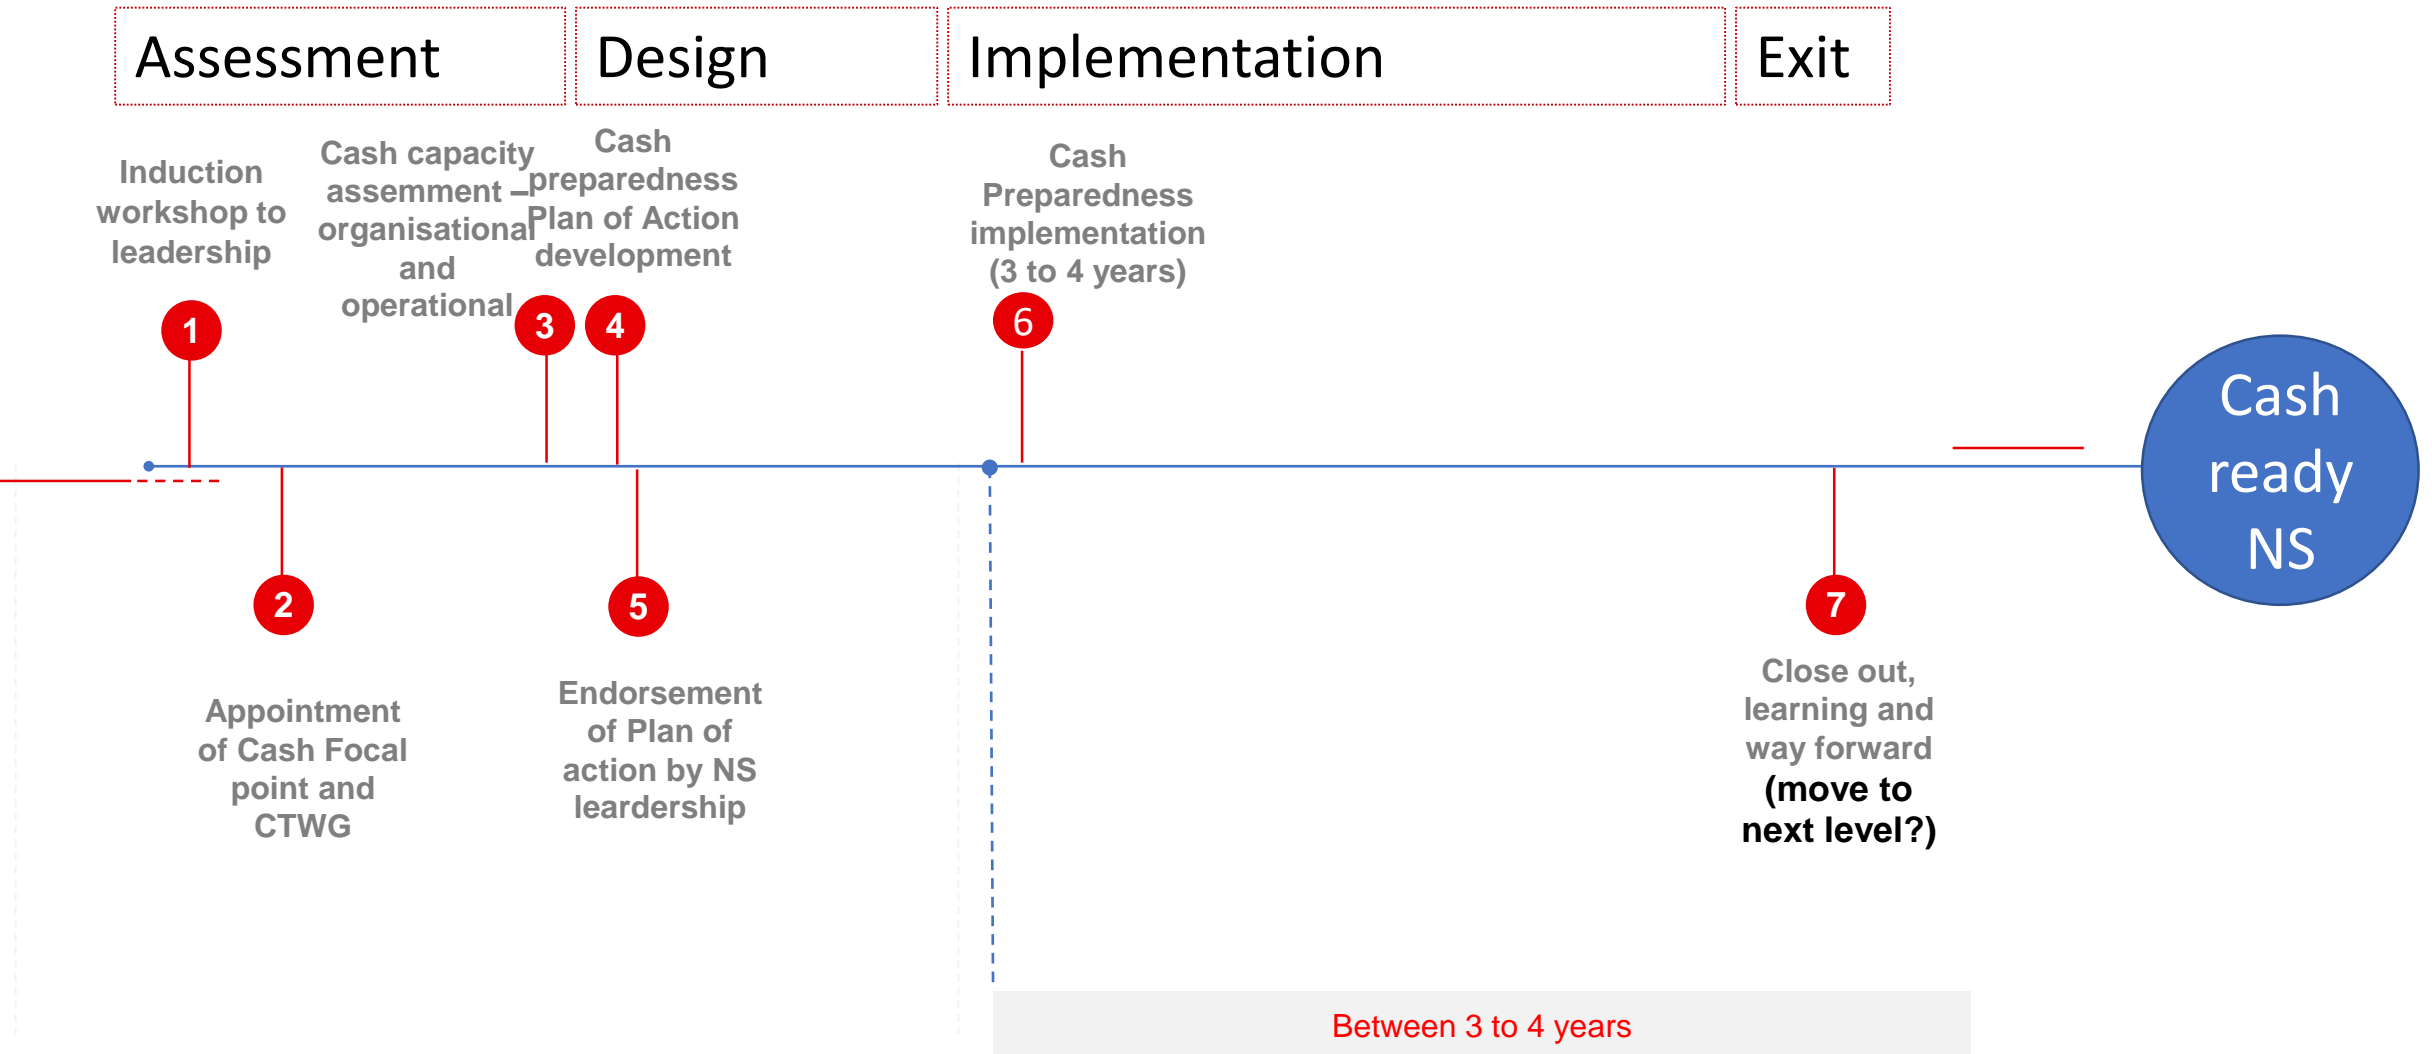

The investment made in cash preparedness so far has resulted in increased uptake of cash preparedness activities and technical know-how for delivery. There remains a stark need for the CVAP approach to be raised to the level of organisational change and get leadership commitment at the highest levels.

2019 Independent evaluation conclusion

A NS is CVA prepared when it is able and likely to deliver appropriate assistance in the form of scalable, timely and accountable CVA

The cash preparedness path

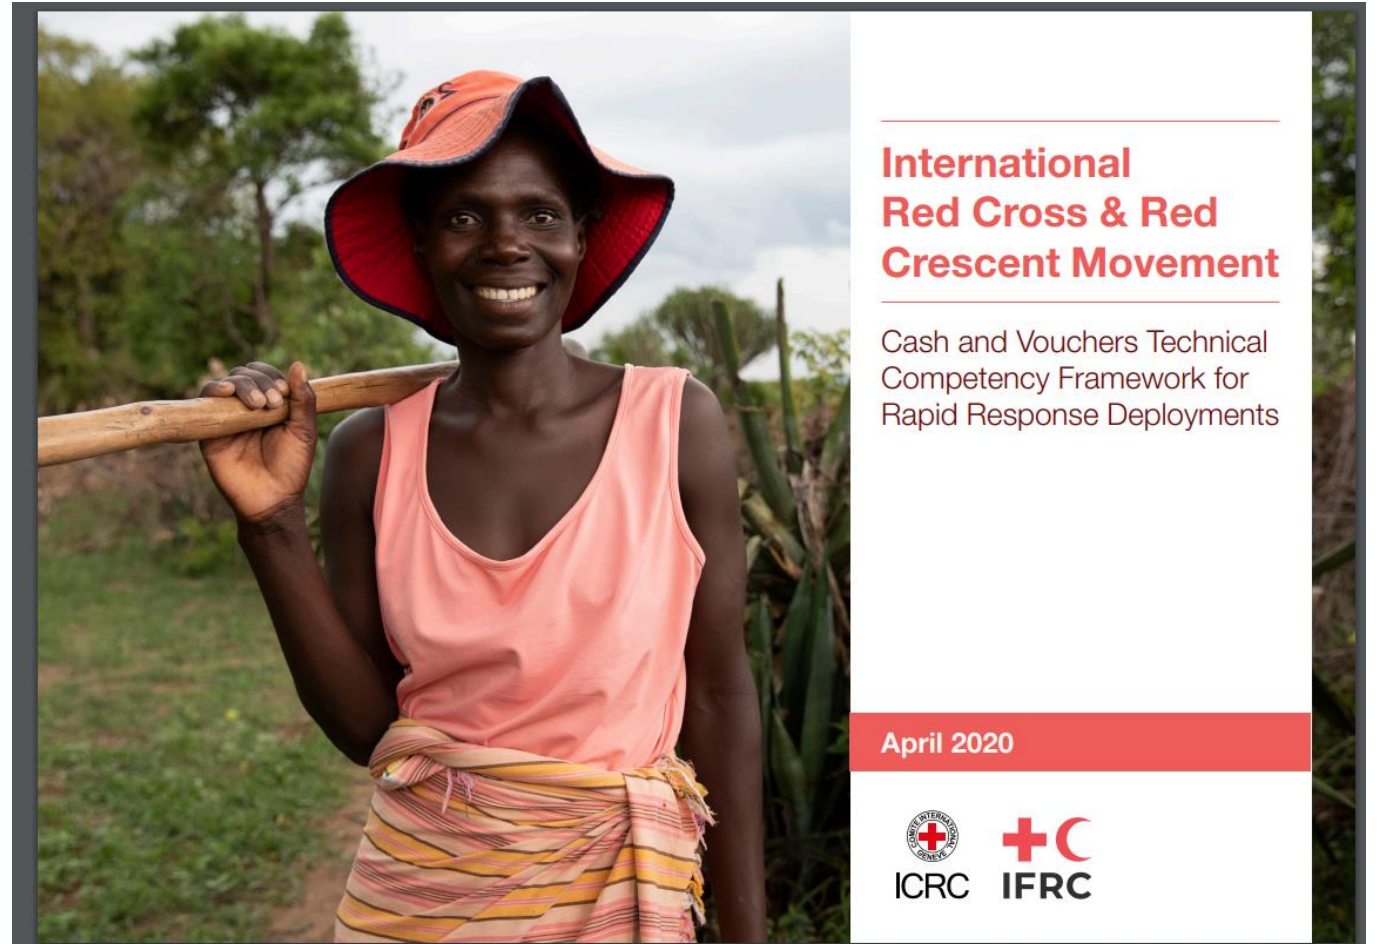

A NS from West Africa

Indicators	2016 - Baseline	2017	2018	2019	2020	2021
				Endline		
% projects using CVA	0%	2/11 18%	4 /10 40%	10/14 71%	12/15 80 %	12/15 80 %
